EXPERIENCE

Front-End Developer & UX (Vue)

Nov 2019 – 2020

HelloPrint

Rotterdam

- Migrating legacy code (jQuery) to VueJS and Node stack.
- Improving UX and UI
- Expanding from local countries to a Global Shop
- Creating new Vue components based on the legacy shop.
- Creating features from marketing team requests
- Refactoring SCSS base using Tailwind framework
- BEM Methodology design system

Front-End & UX/UI Designer

Mar 2019 – Sept 2019

Tapfiliate

Amsterdam

- Redesign the homepage.
- Refactoring code from Angular 2 to React.
- Creating reusable components.
- New functionalities added to the platform.
- Creating prototypes and wireframes for new functionalities using Sketch.
- Improving the UX in the platform and main website.
- Improving and fixing Cross-Browser compatibility with our platform.
- Maintaining old legacy code (jQuery, Vanilla, CSS).
- Template engines such as Pug and Jade

Front End Developer & UX/UI Designer

Apr 2015 – Jan 2019

Bynder

Rotterdam

During my time at Bynder, I worked and improved the POD Feature (Publishing on Demand) which involved:

- Transforming PDF documents into interactive code using HTML5, CSS and JSON. Later it was automated, but still needed design fixes.
- InDesign API Back-End Server Side improvement and functionality additions.
- Speed improvements in requests and processes.
- POD Template Management Screen (Client Side) with a new and intuitive design.
- Worked on the DIY Engine (Client could upload their documents and process them automatically, without Bynder's help).
- Code implementation (JSON, CSS, Javascript, HTML) from clients requests.
- Custom design work for clients such as the creation for Ad banners, Flyers, PDF Documents.
- Improved Editor on the POD tool.

Intern Web Developer

Apr 2014 – Jul 2014

IDENTO

Granada, Spain

- Front End Development transforming Web Layouts made by the Graphic Designer into interactive code.
- Clean code using HTML5, CSS3, Bootstrap, jQuery
- Web Design Implementation to CMS Wordpress
- Graphic Design such as banners or flyers for Marketing Ads in Facebook & Google.
- Some Back End functions using PHP.
- API Implementation
